

# The Ferroloy Solution

*Supply chain risk management is one of the most crucial elements in keeping production lines moving.*

## Customer Focused

At Ferroloy, we are focused on creating value for our customers. We work together with our customers to build close relationships that yield results that can reduce the total costs of ownership and promote process efficiencies.

Located in Wichita, Kansas, our manufacturing capability and expertise enable us to deliver high-quality castings at competitive pricing. With our facility located in the middle of the U.S. we can reach all corners of the country efficiently.

## Product Excellence

Ferroloy's ductile and gray iron foundry is set up to allow a seamless flow of castings through the facility. With cast weights that range from 1/2 lb. to 70 lbs, our state-of-the-art mold machines make us the ideal foundry solution

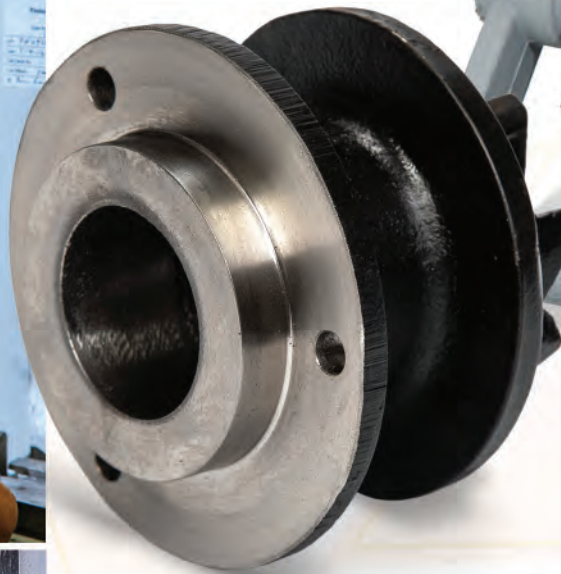

for replacement and production parts capable of delivering lot sizes of 25 to 2,000 pieces.

Our flexibility and future plans for expansion allow us to tailor our foundry production to meet the needs of our customers, while delivering a unique experience for metal casting customers.

# Foundry Capabilities

## Our Commitment

Our commitment to being a collaborative partner to our customers does not end with the parts we manufacture. At Ferroloy, we are committed to being an industry leader on health and safety, as well as good stewards of our environment. We know that protecting our employees and the environment is a lasting investment on our ability to deliver manufacturing excellence for generations to come.

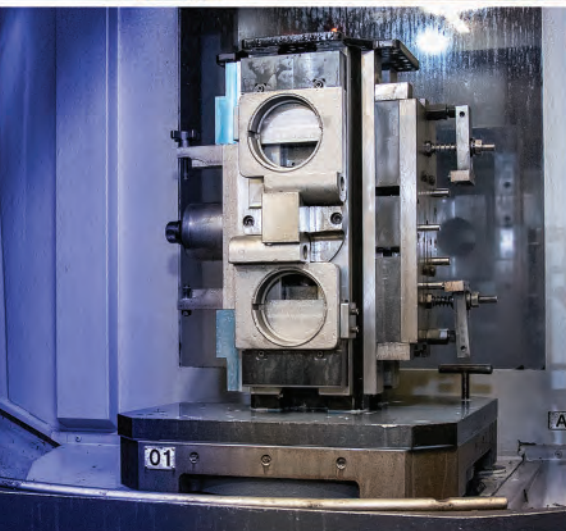

## More than a Foundry

In addition to being an iron foundry, we machine and assemble parts internally. Also our network of third party service providers allows us to offer an even wider range of services for our customers, including:

- ▼ Heat Treat
- ▼ Coatings
- ▼ Machining
- ▼ Tooling

## Quality Assurance

We know that quality and on-time delivery is important. Simply stated, quality is our brand and without it, nothing else matters. At Ferroloy, we have a robust quality assurance program that ensures each part we manufacture meets or exceeds all industry standards. An ISO 9001 and NSF International certified shop, we deliver consistent and dependable parts with a 97.5% on-time delivery schedule.

## Need a Quote?

We want to work with you. Better yet, we want to build a lasting foundry relationship. Contact our team today to get started.
